

Cookie on Test Valley Website	Purpose and Description of Cookie
CMS – Statistics: <i>Visited.#</i>	Always set on all pages. It is used for statistical analysis of unique visitors to our website, and the data feeds through to our content management system where our publishers can see what pages are proving popular and whether navigation can be improved. The cookie operates on a similar basis to Google Analytics.
Google Analytics: <i>_utma</i> <i>_utmb</i> <i>_utmc</i> <i>_utmz, etc.</i>	These cookies are used to collect information about how visitors use our site, but not to identify an individual. We use the information to compile reports and to help us improve the site content and usability of our Website. The cookies collect information such as the number of visitors to the site, where visitors have come to the site from and the pages they visited.
CMS – Accessibility: <i>ProcessDisplayOptionsActionFilter.Pref</i>	This is set only when a user selects one of the text size/contrast options. The preference is remembered so that the same look and feel is retained for each page and future visit to our website.
Forms: <i>ASPSESSIONID*****</i>	Set when a user visits any Eform that is powered by FormsMaster. This is used to track the user session as they fill out the form and is used as an identifier for form filling purposes only.
Hide cookie notice Name: <i>CookieNotice.Hide</i>	This holds a cookie to let us know that the cookie notice has been clicked and so to not show it again. Persistent
<i>has_js</i>	This cookie checks whether you have JavaScript enabled. It is deleted when you close your browser.
Bridge Name: <i>Bridge.Auth</i>	This tell the Bridge if the user is anonymous or a logged in member Session only
