Deprivation

The English Index of Multiple Deprivation 2019 is designed to identify areas where communities lack resources and are in need. To do this, seven factors are considered, which are:

- income deprivation;
- employment deprivation;
- education, skills and training deprivation;
- health deprivation and disability;
- crime;
- barriers to housing and services;
- living environment deprivation.

Areas are scored on each of these factors, and ranked nationally from least deprived to most deprived.

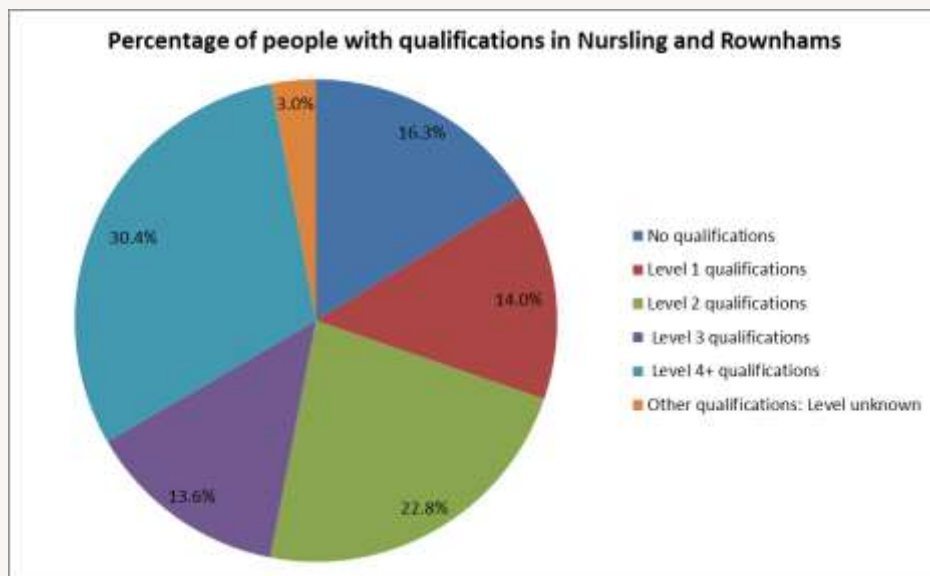

This map shows the deprivation scores for parish of Nursling and Rownhams against all areas in Test Valley. These are measured in Super Output Areas, four of which make up Nursling and Rownhams. Of 32,884 areas ranked across the country, areas of Nursling and Rownhams rank between 20,527th and 30,944th, this puts all of the parish in the **30% of least deprived** areas in the country. In particular, the area around Horns Drove and Bakers Drove (seen in dark green on the map) are within the 10% of least deprived areas in the country.

More specifically, most of the parish ranks within the top 20% of most deprived areas when it comes to physical proximity of local services as well as being in the top 20% of most deprived areas for its 'outdoors' living environment, which relates to air quality and road traffic accidents. The area to the north-east of the parish (seen on the map in light yellow) also falls within the top 30% of most deprived areas for crime, which measures the risk of personal and material victimisation at a local level.

Hence, this information has been produced on a 'best fit' basis, it's not an exact representation of Nursling and Rownhams but provides as good an indication as is currently feasible.

This data is taken from the 2018 UK Business Register and Employment Survey which is produced by the Office for National Statistics (ONS). This dataset relies upon a sample of 85,000 businesses across the country, from which these estimates are modelled. As such, there will be some sampling variability which result in the quality of the estimates deteriorating for smaller geographies. A better indication will be available from the 2021 Census which will be available in 2022/3; once this data is released, this profile will be updated and circulated to Borough and Parish Councillors.

This graph shows the percentage of the workforce by sector, according to the latest Business Register and Employment Survey in 2018.
