Deprivation

The English Index of Multiple Deprivation 2019 is designed to identify areas where communities lack resources and are in need. To do this, seven factors are considered, which are:

- income deprivation;
- employment deprivation;
- education, skills and training deprivation;
- health deprivation and disability;
- crime;
- barriers to housing and services;
- living environment deprivation.

Areas are scored on each of these factors, and ranked nationally from least deprived to most deprived.

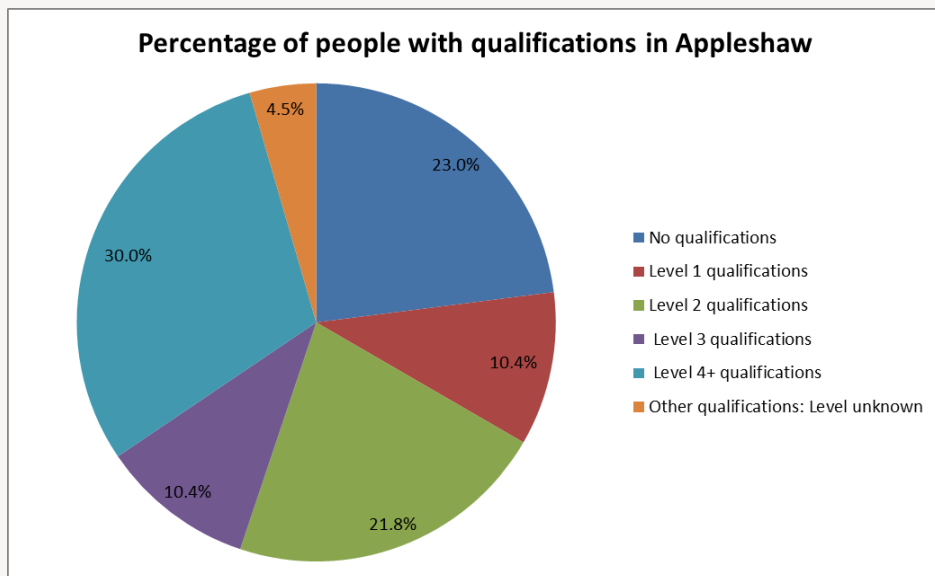

This map shows the deprivation scores for parish of Appleshaw against all areas in Test Valley. Of 32,844 areas ranked across the country, the east of the parish (seen in yellow on the map) ranks **19,664th**, this puts it in the **50% of least deprived** in the country. Meanwhile the west of the parish (seen in light green on the map) ranks **21,510th**, this puts it in the **40% of least deprived** areas in the country.

More specifically, the east of Appleshaw ranks in the top 10% of most deprived areas for its 'indoors' living environment; this is defined by the amount of houses with central heating as well as the proportion of social and private houses that are in a poor condition (as defined by the Decent Homes Standard). The west of Appleshaw is amongst the 30% of most deprived areas for its 'indoors' living environment. Additionally, all of the parish ranks in the top 10% of most deprived areas when it comes to physical proximity of local services.
