Details of Your Comment

What is your comment?	I would like to comment on the test valley borough draft local plan and in particular the plan to identification of Velmore Farm off Templars Way as a preferred site for development
What would you like the outcome to be?	The plan identifies the access as being via Templars Way. This road is already very busy and the extra vehicles will have a significant impact on this and other roads. Roads around here are commonly flooded and no work has been done to provide a remedy. This provides little reassurance that this major undertaking will be adequately resourced and will not suffer the same flooding issues
Have you contacted the council about this before?	No
If yes, who did you contact?
