Subject: Issues and Options Consultation - next Local Plan

Dear Sir/Madam,

Charlton Parish Council members have asked me to provide you with the following in response to your recent Issues and Options Consultation for the next Local Plan.

Charlton Parish Council is community led and have a Neighbourhood plan in gestation; therefore, we will be confirmed as community led at the time of drafting the next local plan. This will include for a housing needs survey, therefore at this time we cannot comment in the manner in which we would prefer. Once our neighbourhood plan is enforced we will be better placed to comment with relevant evidence.

Yours sincerely,

Amy Taylor
Parish Clerk

Dear Sir/Madam,

Further to our previous submission, Charlton Parish Council would like to submit the following additional comments:

Within Test Valley Borough Council's current Local Plan, there is no separate settlement boundary for the village of Charlton. The Parish is allocated as a neighbourhood area to allow for a neighbourhood plan, therefore the parish should now get a designated settlement boundary to match the parish boundary. In TVBC's document 'Settlement Hierarchy Topic Paper', Charlton is not only noted as a Key Service Centre, but also a rural village, therefore we insist that TVBC designate a settlement boundary.

Yours sincerely,

Amy Taylor
 Parish Clerk
