Subject: RE: B3 Issues and Options consultation for the next Local Plan

Dear Mr Smith,

Thank you for consulting on Test Valley's Borough Council's Regulation 18 Issues and Options document for its new Local Plan. Please note that this response represents the views of both the Eastleigh Borough Council and Southampton City Council local planning authorities with regards to its combined planning policy team.

We support the approach taken in identifying the key issues and options across a range of themes. We particularly note and support the intention to apply the Government's proposed standardised methodology for working out how many homes need to be planned for across Test Valley. We also support the recognition of other issues such as health and wellbeing and how the planning system can play a role in helping to reduce health related problems.

We would welcome continued dialogue as the Local Plan is progressed towards the Preferred Options (Regulation 18 stage).

Please get in touch if you wish to discuss our response further.

Yours sincerely,

Warren

Subject: B3 Issues and Options consultation for the next Local Plan

The Council is preparing our next Local Plan for the Borough for the period to 2036.

A Local Plan has to be based upon national planning guidance (National Planning Policy Framework and Planning Practice Guidance), the evidence that we have collected and have taken into account, and what the Council and our communities see as the key planning issues.

The Council is therefore consulting on the issues and options for the next Local Plan, as the first stage in the preparation process, aims to get your views on the issues that face the Borough, and those that live and work in Test
