Objection

Policy H1 proposes protection to important open spaces and built and natural features. These are not easily identified and are to be found in a number of separate documents; the Conservation Area Land Appraisal and the Village Design Statement.

Where development plan polices relate to specific areas those areas should be identified on a proposals map. It is recognised that including relative small individual features may not be practical but by including the larger areas and features on a map within the Neighbourhood Plan would greatly assist the reader understand the constraints which may apply and enhance the value of the document in the decision making process. As drafted the TNP does not provide the necessary clarity required of a development plan document.
